

Student Introductions

My name is Ang Xiao. You can call me Shawn too. I have a Degree of Bachelor of Engineer, majoring in Information Security.

Favorite activity:

My favorite activity is playing tennis, and I am a fan of Roger Federer~ I live in Sachem right now and there are tennis courts nearby, so it's quite convenient.

Interesting areas:

I am planning to focus on software developing and machine learning. The language I used is C/C++ and python.

Fun fact:

I play Genshin Impact (An Anime Game) sometime and my User Id is 646418028. Welcome to add me as a friend~

My machine learning background:

I have used some frames and tools like TensorFlow and Jupyter notebook. I trained my own model to identify cats and dogs. Recently I am working with Prof. Wesley to apply effective fair machine learning algorithm to health data to make better predictions.
